Uncorrelated returns from liquidity premiums

Note: Private Debt is the CDLI (Cliffwater Direct Lending Index), Equity represents the S&P 500, and Fixed Income is iShares 20 Year Treasury Bond ETF

Commissions, trailing commissions, management fees and expenses all may be associated with investment funds. Please read the prospectus before investing. If the securities are purchased or sold on a stock exchange, you may pay more or receive less than the current net asset value. Except as otherwise indicated, the indicated rates of return are the historical annual compounded total returns including changes in share/unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.
